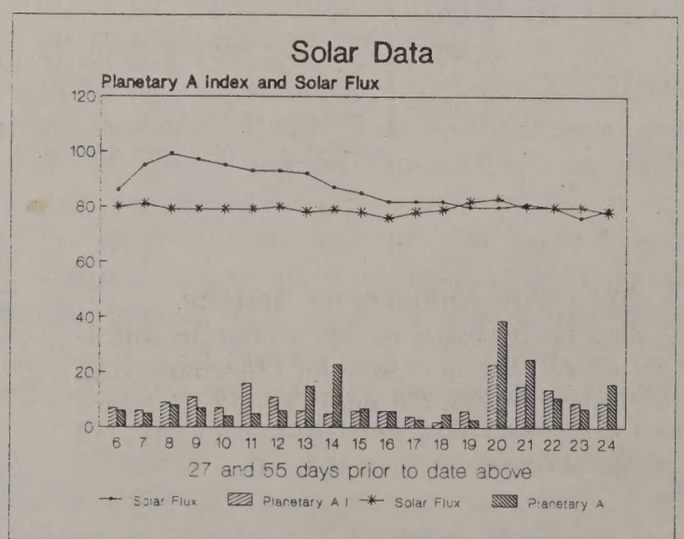
Propagation Watch

Solar activity remains very low, with solar flux below 80. The sun is nearly spotless, and we are unlikely to enjoy another surge in activity as we had in mid-December. Sunspots tend to be very short-lived at this stage in the sunspot cycle. Instead look for flux to hover in the 80-85 range. This will eliminate most opening on 10 and 12 meters, and severely limit 15-meter propagation. 17 meters will probably be open during daylight hours, as will 20. 40 meters should remain a good DX band around sunrise and sunset.

The good DX news has been extremely quiet geomagnetic conditions. Following a week of very low, stable geomagnetic activity, 160 meters exploded with good signals Dec. 16-18, for example. Check the lower bands when the K index is 2 or less, especially after several such days in a row. Even DXers with marginal low-band antennas can make contacts at these times.

A StratWarm now exists, but geomagnetic activity has masked any minor negative effect this stratospheric warming has on high-latitude HF propagation. Meanwhile, look for good low-bands conditions over the next two weeks. Good hunting!



GOLIST and DX-BBS Move

DX-BBS and the GOLIST QSL Manager list, including all support functions for PacketCluster® SYSOPs, has moved from California to Kentucky.

The new owners are Paul AE4AP and Nancy Smith KB4RGW. Paul AE4AP (ex-N4FFO) is the new SYSOP for DX-BBS.

The new telephone number for DX-BBS is 502 898-8864. The DX-BBS Computer has physically moved, and all passwords are intact at the new location.

GOQSL SYSOPs should make their next upload to the new number.

The new GOLIST fax number is 502 898-8865. Voice 502 898-8863. Mail goes to PO Box 2306, Paducah, KY 42002-2306.

Jan and I would again like to express our thanks to all of you who have sent messages congratulating us on our retirement. We are honored that we have been a valuable part of your hobby, and we look forward to seeing you on the air, at conventions, and maybe even from the other side of a pileup.

73, Jay & Jan O'Brien W6GO/K6HHD w6go@netcom.com

DXpedition Opportunities

Those would-be DXpeditioners who are not up to an operation of the scope of the **3Y0PI** operation, but still want a taste of what's is like on the other end of the pile-ups may find some of these suggestions of interest:

DX-Caribe Cruise '95: Yaesu USA's second amateur radio theme cruise is June 18-25, starting in Aruba and sailing to Dominica, Barbados, Martinique, and Curacao, on the Dolphin Cruise line's S.S. Ocean Breeze. Two HF stations on board will permit /MM contacts, plus passengers may operate from beach locations at each stopover. Guest speakers include the Yaesu staff, IOTA maven Roger Ballister G3KMA, Rusty Epps W6OAT, and Gordon West WB6NOA. For more information, contact Landry & Kling, 1390 South Dixie Highway, Suite 1207, Coral Gables FL 33146, phone 800-448-9002, fax: 305-661-0977.
